To: City Council; Esther Sanchez; City Clerk
Subject: City Council Agenda Item #19 May 6, 2026

EXTERNAL MESSAGE: Use caution when opening attachments, clicking links, or responding. When in doubt, please contact CustomerCare@oceansideca.org

Each person desiring to address the council shall state his or her name and address or area of the city in which he or she lives for the record, and state whom he or she is representing if he or she represents an organization or other persons.

I have been watching these meetings for about six years now. The council has been pretty casual about this requirement. There is one person in particular that speaks often and who just states that that she is "Linda Walshaw, CEO of **MAC, (Mobile Home Advisory Committee, Inc.)**". She never states her address, which is actually in Vista and has been since 2019.

I can't imagine any reason for her to not comply with your requirement. People listening have a right to know that she doesn't live in Oceanside anymore. She used to use a PO Box address in Oceanside as her address, but I don't think she has that anymore. It wasn't correct; she didn't live there at the Postal Store, (not even Post Office).

Please be fair and make the rules apply to everyone. I am disabled and can't attend in person but am active in the community where I live.

Thank you for your attention to this.
