# PLANNING COMMISSION RESOLUTION NO. 2025-P21

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF OCEANSIDE, CALIFORNIA RECOMMENDING CITY COUNCIL ADOPTION OF A MITIGATED NEGATIVE DECLARATION AND APPROVAL OF A GENERAL PLAN AMENDMENT, ZONE AMENDMENT, TENTATIVE MAP, AND DEVELOPMENT PLAN, ON CERTAIN REAL PROPERTY IN THE CITY OF OCEANSIDE

APPLICATION NO:

GPA24-00002, ZA24-00001, T24-00002, D24-00010

APPLICANT:

THE TRUE LIFE COMPANIES, LLC

LOCATION:

333 GARRISON STREET (APN: 162-020-26)

THE PLANNING COMMISSION OF THE CITY OF OCEANSIDE, CALIFORNIA DOES RESOLVE AS FOLLOWS:

WHEREAS, there was filed with this Commission a verified petition on the forms prescribed by the Commission requesting a General Plan Amendment, Zone Amendment, Tentative Map, and Development Plan, under the provisions of Articles 17, 30, 31, 40, 43, and 45 of the Zoning Ordinance of the City of Oceanside and Article IV of the Subdivision Ordinance of the City of Oceanside to permit the following:

a change in the existing General Plan land use and zoning designations to allow for the construction of a planned residential development community comprised of 140 townhomes and associated amenities and site improvements;

on certain real property described in the project description.

WHEREAS, the Planning Commission, after giving the required notice, did on the 25<sup>th</sup> day of August, 2025 conduct a duly advertised public hearing as prescribed by law to consider said application; and

WHEREAS, pursuant to the California Environmental Quality Act of 1970, and State Guidelines thereto; a Mitigated Negative Declaration (MND) was prepared and circulated for this project;

WHEREAS, the documents or other material which constitute the record of proceedings upon which the decision is based will be maintained by the City of Oceanside Planning Division, 300 North Coast Highway, Oceanside, California 92054.

WHEREAS, pursuant to Gov't Code §66020(d)(1), NOTICE IS HEREBY GIVEN that the project is subject to certain fees, dedications, reservations and other exactions as provided below:

Description	Authority for Imposition
Public Facility (Residential)	Ord. No. 91-09
	Reso. No. 15-R0638-1
Parks (Residential only)	Ord. No. 91-09
dodk splvy palkty ist.	Reso. No. 15-R0638-1
School District Fee (Residential)	Ord. No. 91-34
George Lander Lander (1995) Alle St. St. Co. (1995)	OUSD Res. 13(12-13)
	CUSD Res. 21-1314
Traffic Signal & Thoroughfare (Multi-Family	Reso. No. 16-R0324-1
Residential)	Reso. No. 12-R0626-1
Drainage and Flood Control Fee	Ord. No. 85-23
	Reso. No. 16-R0324-1

Residential and Multi-Family Residential)	Ord. No. 15-OR0479-1
the property of the second of	City Code 37.7.37
Water System Capacity Buy-in Fee (Residential and	Reso. No. 87-96
Non-Residential)	Ord. No. 15-OR0480-1
	City Code 37.7.37
San Diego County Water Authority (Residential and	SDWA Ord. 2017
Non-Residential)	:
Inclusionary Housing Administration Fee	Chapter 14C.9 of the MC
ere Bjerger (1991) i de la propiet	Reso. No. 03-R175-1
	Reso. No. 11-R0483-1

WHEREAS, the fees listed above have been identified by the City as being applicable to the project as proposed. Failure by the City to list an applicable fee above does not alleviate the developer from paying all applicable fees at the time when such fees become due;

WHEREAS, unless otherwise provided by this resolution, all impact fees shall be calculated and collected at the time and in the manner provided in Chapter 32B of the Oceanside City Code and the City expressly reserves the right to amend the fees and fee

calculations subject to applicable law including Government Code Section 65589.5(o); and

WHEREAS, the City expressly reserves the right to establish, modify or adjust any fee, dedication, reservation or other exaction to the extent permitted and as authorized by law;

WHEREAS, pursuant to Gov't Code §66020(d)(1), NOTICE IS FURTHER GIVEN that the 90-day period to protest the imposition of any fee, dedication, reservation, or other exaction described in this resolution begins on the effective date of this resolution and any such protest must be in a manner that complies with Section 66020; and

WHEREAS, the documents or other material which constitute the record of proceedings upon which the decision is based will be maintained by the City of Oceanside Planning Division, 300 North Coast Highway, Oceanside, California 92054.

WHEREAS, studies and investigations made by this Commission and in its behalf reveal the following facts:

## **FINDINGS**

# For the General Plan Amendment (GPA24-00002):

To change the existing land use designations of the project site to allow for medium density residential land uses:

1. The re-designation of the project site from Civic Institution (CI) to Medium Density C Residential (MDC-R) would provide for a land use consistent with housing policies contained in the adopted General Plan. The proposed land use would be sensitive to and compatible with the adjoining residential neighborhoods. The site design and architecture would result in high-quality development of appropriate scale that would be adequately buffered from adjacent single-family homes by the existing vegetated slopes. The proposed designation of MDC-R is consistent with the area given that 1.3 acres of the site is already designated MDC-R, as well as the properties to the south.

# For the Zone Amendment (ZA24-00001):

To re-designate the project site as a Planned Development (PD) District subject to the land use and development standards of the Oceanside Garrison Planned Development Plan:

- 1. The PD Plan and Development Plan would be compatible with surrounding development and are consistent with Policies 1.11, 1.12, 1.16, 1.17, 1.23, and 2.32 of the Land Use Element; Policy 3a-1 of the Economic Development Element; Policy 1a-2 of the Energy and Climate Action Element; and Policies 2.1 and 3.8 of the Housing Element. The proposed project is consistent with the above policies due to its quality design; on-site deed-restricted housing; compatibility with surrounding land uses; and proximity to transit, employment centers, and City facilities. The development standards of the PD Plan, including allowable density and allowable unit types, are comparable to the RM-C zone, which would be the corresponding zone to the MDC-R land use designation.
- The PD Plan and Development Plan would enhance the potential for superior urban design as the PD Plan introduces objective development standards that allows the project to contain a comprehensive site plan for a property with unique shape and constraints that might otherwise be developed to the detriment of surrounding neighborhoods. The PD Plan affords the applicant greater flexibility to design a more context-sensitive project which would enhance the visual quality of the surrounding community where strict application of development standards crafted for small lots could have resulted in poor urban design.
- 3. The minor deviations from the base district regulations requested with the PD Plan are considerably justified given the proposed community benefits of a privately-maintained pocket park that is open to the public and deed-restricted homes onsite.
- 4. The PD Plan and Development Plan include adequate provisions for utilities, services, and emergency vehicle access as shown in the studies included in the Mitigated Negative Declaration. Public service demands will not exceed the capacity of existing and planned systems.

For the Tentative Map (T24-00002):

- 1. The proposed Tentative Map is consistent with the General Plan and provisions of the Subdivision Ordinance of the City. The proposed density of 16.9 dwelling units per acre is within the density range allowed for the MDC-R land use designation.
- 2. The site is physically suitable for the type of development in that the site includes 8.3 acres of relatively flat, largely disturbed land that is not significantly constrained by topography, geological or hydrological hazards, protected habitat or other limiting features.
- 3. The site is physically suitable for the proposed density of development as the site is located within an urbanized area and surrounded by residential uses. The site is served by existing public services, utilities, and public facilities.
- 4. The design of the subdivision or the proposed improvements would not cause substantial environmental damage or substantially injure fish or wildlife or their habitat. The subject property is located in an urbanized area that was previously developed as an elementary school. Any potential environmental impacts would be mitigated to a less than significant level with the proposed mitigation in the Mitigated Negative Declaration.
- 5. The design of the subdivision or the type of improvements meet City standards and will not conflict with easements, acquired by the public at large, for access through or the use of property within the proposed subdivision. Easements on the property would be improved and maintained in a manner consistent with City standards.
- 6. The subdivision complies with all other applicable ordinances, regulations and guidelines of the City of Oceanside. The proposed tentative map exhibit accords with the form and content requirements of the City's Subdivision Ordinance (Section 401).

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission of the City of Oceanside does hereby recommend City Council approval of General Plan Amendment (GPA24-00002), Zone Amendment (ZA24-00001), Tentative Map (T24-00002), and Development Plan (D24-00010) subject to the following conditions:

# **Building:**

1. Beginning on January 1, 2023, Oceanside Development Services (ODS) is required by State law to enforce the 2022 Edition of California Building Standards Codes (a.k.a., Title 24 of the California Codes of Regulations).

Every three years, the State adopts new model codes (known collectively as the California Building Standards Code) to establish uniform standards for the construction and maintenance of buildings, electrical systems, plumbing systems, mechanical systems, and fire and life safety systems.

- Part 2: The 2022 California Building Code (CBC).
- Part 2.5: The 2022 California Residential Code (CRC).
- Part 3: The 2022 California Electrical Code (CEC).
- Part 4: The 2022 California Mechanical Code (CMC).
- Part 5: The 2022 California Plumbing Code (CPC).
- Part 6: The 2022 California Energy Code
- Part 9: The 2022 California Fire Code (CFC)
- Part 11: The 2022 California Green Building Standards Code (CALGreen Code) This Part is known as the California Green Building Standards Code, and it is intended that it shall also be known as the CALGreen Code.

Also the City of Oceanside Municipal Code

- Clearly label and identify on plans (fire walls, fire barriers, fire partitions, shafts, smoke barriers, and smoke partitions), along with their fire-resistance ratings.
   Provide a legend.
- 3. The building plans for this project are required by State law to be prepared by a licensed architect or engineer.
- 4. Compliance with the Federal Clean Water Act (BMP's) shall be demonstrated on the plans.
- 5. All outdoor lighting shall meet Chapter 39 of the City Code (Light Pollution Ordinance) and shall be shielded appropriately.

- 6. Separate/unique addresses may be required to facilitate utility releases. Verification that the addresses have been properly assigned by the City's Planning Division shall accompany the Building Permit application.
- 7. A form or foundation survey shall be required prior to the placement of concrete to show the location of the new structure in respect to the property lines, known easements, and known setback lines. By obtaining a form survey the location of the foundation is checked prior to the placement of concrete, and can save costly corrective measures in case of an encroachment of a property line
- 8. The 2022 California Energy Code requires rooftop solar zones or based on Energy calculations. Solar ready rooftop required. Low-rise and High-rise Multi-family Buildings, Hotel/Motel Occupancies, and Nonresidential Buildings. The solar zone shall be located on the roof or overhang of the building or on the roof or overhang of another structure located within 250 feet of the building or on covered parking installed with the building project and have a total area no less than 15 percent of the total roof area of the building excluding any skylight area. The requirements for solar ready buildings are all mandatory, so there are no prescriptive and performance compliance paths. Since the provisions are mandatory, there are also no tradeoffs allowed, and applicants must demonstrate compliance with each measure.
- Exterior walls of all buildings shall comply with CBC table 705.2
   705.2 Projections

Cornices, eave overhangs, exterior balconies and similar projections extending beyond the exterior wall shall conform to the requirements of this section and Section 1406. Exterior egress balconies and exterior exit stairways and ramps shall comply with Sections 1021 and 1027, respectively. Projections shall not extend any closer to the line used to determine the fire separation distance than shown in Table 705.2.

- 10. Site development, parking, access into buildings and building interiors shall comply WITH ALL CURRENT State of California Accessibility Code where required. You must clearly show compliance on the plans.
  - Buildings or portions of buildings and facilities within the scope of this chapter shall be accessible to persons with disabilities. Each building on a building site shall be considered separately when determining the requirements contained in this chapter, except when calculating the number of units which must comply with Section 1102A.3.1. Dwelling units within a single structure separated by firewalls do not constitute separate buildings.
  - Newly-constructed covered multifamily dwellings as defined in this chapter, include, but are not limited to, the following:
  - Apartment buildings with 3 or more dwelling units including timeshare apartments not considered a place of public accommodation or transient lodging as defined in Health and Safety Code Section 19955 (a), and Chapter 2 of the California Building Code.
  - Condominiums with 4 or more dwelling units including timeshare condominiums not considered a place of public accommodation or transient lodging as defined in Health and Safety Code Section 19955 (a), and Chapter 2 of the California Building Code.
  - Lodging houses, as defined in Chapter 2 of the California Building Code, used as a residence with more than 3 but not more than 5 guest rooms.
  - Public housing as defined in Chapter 2 of this code is subject to provisions of the Division of the State Architect (DSA-AC) in Chapter 11B. Newly constructed covered multifamily dwellings, which can also be defined as public housing, shall be subject to the requirements of Chapter 11A and Chapter 11B. 1102A.3.2 Multistory dwelling units in buildings with one or more elevators Multistory dwelling units contained in buildings with elevators shall comply with this section. For multistory dwelling units in buildings with elevators, the story of the unit that

is served by the building elevator is considered a ground floor and the primary entry floor to the unit and shall comply with the following:

- At least 1 powder room or bathroom shall be located on the primary entry level.
- At least 1 kitchen shall be located on the primary entry level.
- All rooms or spaces located on the primary entry level shall be served by an accessible route and shall comply with Division IV.

1109A.3 Required accessible parking spaces

Accessible parking spaces shall be provided at a minimum rate of 2 percent of the covered multifamily dwelling units. At least one space of each type of parking facility shall be made accessible even if the total number exceeds 2 percent.

1109A.7 Location of accessible parking spaces

The location of accessible parking spaces shall comply with the following:

- Accessible parking spaces shall be located on the shortest possible accessible route to an accessible building, or covered multifamily dwelling unit entrance. All van accessible spaces may be grouped on one level of a multilevel parking facility. Please illustrate compliance on the plans.
- When parking facilities are located adjacent to a building with multiple accessible entrances, accessible parking spaces shall be dispersed and located near the accessible building entrances.
- When practical, the accessible route shall not cross lanes for vehicular traffic. When crossing vehicle traffic lanes is necessary, the accessible route shall be designated and marked as a crosswalk.
- Parking facilities that do not serve a particular building shall have accessible parking spaces located on the shortest possible accessible route to an accessible pedestrian entrance of the parking facility.
- Accessible parking spaces shall be located so that persons with disabilities are not compelled to wheel or walk behind parked cars other than their own.

Exception: When the enforcement agency determines that compliance with this section or providing equivalent facilitation would create an unreasonable hardship,

- parking spaces may be provided which would require a person with physical disabilities to wheel or walk behind other than accessible parking spaces.
- 11. A complete set of Soil Reports, Structural Calculations, Energy Calculations, & California Title 24 Energy Form(s) shall be required at time of plans submittal to the Building Division for plan check.
- 12. City of Oceanside Enforces the 2019 California Green Building Standards Code. A Construction Waste Management Plan shall be required at time of plans submittal to the Building Division for plan check.
  - 5.408.1 Construction waste diversion. Recycle and/or salvage for reuse a minimum of 65 percent of the nonhazardous construction and demolition waste in accordance with Section 5.408.1.1, 5.408.1.2 or 5.408.1.3; or meet a local construction and demolition waste management ordinance, whichever is more stringent.
  - 5.408.1.1 Construction waste management plan. Where a local jurisdiction does not have a construction and demolition waste management ordinance that is more stringent, submit a construction waste management plan that:
  - 1. Identifies the construction and demolition waste materials to be diverted from disposal by efficient usage, recycling, reuse on the project or salvage for future use or sale.
  - 2. Indicates if construction and demolition waste materials will be sorted on-site (source-separated) or bulk mixed (single stream).
  - 3. Identifies diversion facilities where construction and demolition waste material collected will be taken.
  - 4. Specifies that the amount of construction waste and demolition materials diverted shall be calculated by weight or volume, but not by both.
- Plans must specify, as applicable, the type of automatic sprinkler system NFPA
   NFPA 13R, or NFPA 13D installed in each building.
- 14. All electrical, communication, CATV, etc. service lines within the exterior lines of the property shall be underground (City Code Sec. 6.30).

15. Electric vehicle (EV) charging. [N] Construction shall comply with Section 5.106.5.3.1 or 5.106.5.3.2 to facilitate future installation of electric vehicle supply equipment (EVSE) in compliance with California Building Code (CBC) and California Electrical Code (CEC).

Multiple charging space requirements. [N] When multiple charging spaces are required per Table 56.106.5.3.3, raceway(s) is/are required to be installed at the time of construction and shall be installed in accordance with CEC. Construction plans and specifications shall comply with CGBSC 5.106.5.3.2

#### 16. Construction Hours:

Per City of Oceanside Municipal Code section 6.25:

It shall be unlawful to operate equipment or perform any construction in the erection, demolition, alteration, or repair of any Building or structure or the grading or excavation of land during the following hours:

- 1. Before 7:00 a.m. and after 7:00 p.m. Monday through Saturday
- 2. All day Sunday; and
- 3. On any federal holiday.

Exceptions.

- a. An owner/occupant or resident/tenant of residential property may engage in a home improvement project between the hours of 9:00 a.m. and 5:00 p.m. on Sundays and holidays provided the project is for the benefit of said residential property and is personally carried out said owner/occupant or resident/tenant. b. The Building official may authorize extended or alternate hours of construction for the following circumstances:
- i. Emergency work
- ii. Adverse weather conditions
- iii. Compatibility with store Business hours.
- iv. When the work is less objectionable at night than during daylight hours.
- v. Per the direction of the City Managers office for projects that have been determined that rapid completion is in the best interest of the general public.

(Ord. No. 19-OR0757-1, 1, 12-18-2019; Ord. No. 22-OR0685-1, 1, 10-5-2022)

- 17. Addresses for meters

  The Developer must carefully submit the correct address to SDGE for meter release with addresses that are the same as what has been given for each House.
- 18. Area Analysis will be required to show compliance with chapter of 5 of the California Building Codes.
- 19. Per CBC Table 1006.3.4(1) R2 Buildings with 4 units or more may only have 125 feet to an exit from the furthest location on the top floor.
- 20. Buildings over two stories may not use ABS or PVC piping per CPC.
- 21. Veneer and Siding must be installed per the Manufacturing instructions.

## **Engineering:**

- 22. Prior to the demolition of any existing structure or surface improvements on site, a demolition permit application shall be submitted to the Building Division and include erosion control plans. No demolition shall be permitted without an approved erosion control plan.
- 23. Design and construction of all improvements shall be in accordance with the City of Oceanside's Engineers Design and Processing Manual, City Ordinances, standard engineering and specifications of the City of Oceanside, and subject to approval by the City Engineer.
- 24. All right-of-way alignments, street dedications, exact geometrics and widths shall be designed, dedicated, and constructed or replaced in accordance with the City of Oceanside Engineers Design and Processing Manual, and as required by the City Engineer.
- 25. Owner/developer shall provide an updated Title Report dated within 6 months of the grading plan application submittal.
- 26. The approval of the tentative map shall not mean that closure, vacation, or abandonment of any public street, right of way, easement, or facility is granted or guaranteed to the owner/developer. The owner/developer is responsible for applying for all closures, vacations, and abandonments as necessary. The

application(s) shall be reviewed and approved or rejected by the City of Oceanside under separate process-(es) per codes, ordinances, and policies in effect at the time of the application. The City of Oceanside retains its full legislative discretion to consider any application to vacate a public street or right of way.

- 27. Owner/developer shall submit to the City for processing a covenant attesting to the project's development conditions. The approved covenant shall be recorded at the County prior to the issuance of a grading permit.
- 28. All public improvement requirements shall be covered by a Subdivision Improvement Agreement and secured with sufficient improvement securities or bonds guaranteeing performance and payment for labor and materials, setting of survey monuments, and warranties against defective materials and workmanship before the approval of the public improvement plans.
- 29. Prior to the issuance of any building permits, all improvements including landscaping, landscaped medians, frontage improvements shall be under construction to the satisfaction of the City Engineer.
- 30. Prior to the issuance of a Certificate of Occupancy permit, all improvements, including landscaping, landscaped medians, frontage improvements shall be completed to the satisfaction of the City Engineer.
- 31. Prior to approval of the map, provide the City of Oceanside with certification from each public utility and each public entity owning easements within the proposed project stating that: (a) they have received from the owner/developer a copy of the proposed map; (b) they object or do not object to the filing of the map without their signature; (c) in case of a street dedication affected by their existing easement, they will sign a "subordination certificate" or "joint-use certificate" on the map when required by the governing body.
- 32. Prior to the issuance of any grading, improvement or building permits for a model complex, a construction-phasing plan for the entire project shall be reviewed and approved by the Engineering Division, Water Utilities Department, and Fire Department. All public and private improvements including landscaping and

- offsite streets or arterials required to serve the model complex shall be completed prior to the issuance of any Certificate of Occupancy permit.
- 33. All property corners, survey monuments that control public rights-of-way, and City benchmarks shall be protected in place or perpetuated in conformance with Greenbook Standard 400-2 and Business and Professions Code 8771.
- 34. A traffic control plan shall be prepared in accordance with the City's traffic control guidelines and approved by the City Engineer prior to the start of work within the public Right-of-Way. Traffic control safety and implementation for construction or re-construction of streets shall be in accordance with construction signing, marking, and other protection as required by Caltrans' Traffic Manual and City Traffic Control Guidelines. Traffic control plan implementation and hours shall be in accordance with the approved traffic control plans.
- 35. Proposed public improvements located within the City's ROW or onsite shall be displayed on separate public improvement plans in accordance with the City's Engineer's Design and Processing Manual.
- 36. Any existing public or private improvements that are being joined to and that are already damaged or damaged during construction of the project, shall be repaired or replaced as necessary by the developer to provide a competent and stable connection, and to the City's satisfaction.
- 37. The project frontage along Garrison Street shall be constructed with new curb and gutter and sidewalk. Sidewalk improvements (construct/replace) shall comply with current ADA requirements.
- 38. Pedestrian ramps have been proposed on each side of the entry from Garrison Street. Pedestrian ramps shall be ADA-compliant. Additional coordination/design may be required as the northern ramp affects the adjacent property.
- 39. Publicly-maintained pedestrian ramps (maintained by the City of Oceanside) must be located entirely within the public right-of-way (ROW). Pedestrian ramps not located entirely within the City's ROW shall be provided with a ROW dedication on the final map and shown on the improvement plans and grading plans. The

- ROW dedication shall be submitted prior to the approval of the grading plans and recorded prior to the grading plan As-Builts.
- 40. Minimum curb return radius at pedestrian ramps and driveway locations shall comply with the City of Oceanside Engineers Design and Processing Manual.
- 41. Garrison Street shall be provided with a 10-foot minimum parkway between the face of curb and Right-of-Way line, and the design shall be displayed on the improvement plans.
- 42. Sight distance requirements at the project driveway(s) or street shall conform to the sight distance criteria as provided by Caltrans. The owner/developer shall provide a plan and profile of the line of sight for each direction of traffic at each proposed driveway on the grading plans.
- 43. A pavement evaluation report shall be submitted for offsite street and/or alley pavements with the grading plan application. The owner/developer shall contract with a geotechnical engineering firm to perform a field investigation of the existing pavement on all streets adjacent to the project boundary. The limits of the study shall be half-street width along the project's (Garrison Street) frontage. The field investigation shall be performed according to a specific boring plan prepared by a licensed Geotechnical Engineer and approved by the City Engineer prior to the issuance of a grading permit. In the absence of an approved boring plan, the field investigation shall include a minimum of one pavement boring per every fifty linear feet (50) linear feet of street frontage.
- 44. Should the study conclude that the existing road pavement does not meet current pavement thickness requirements set forth in the City of Oceanside Engineers Design and Processing Manual, the Owner/developer shall remove and reconstruct the existing pavement section in accordance with City requirements. Otherwise, the City Engineer shall determine whether the Owner/developer shall: 1) Repair all failed pavement sections, 2) header cut and grind per the direction of the City Engineer, or 3) Perform R-value testing and submit a study that determines if the existing pavement meets current City standards/traffic indices.

- 45. Maintenance responsibilities for the private driveways and roadways, used as access to the land being divided, shall be clearly identified in the project's CC&Rs.
- 46. A precise grading plan, which includes proposed onsite private improvements, shall be prepared, reviewed, secured and approved prior to the issuance of any building permit. The plan shall reflect all pavement, flatwork, landscaped areas, special surfaces, curbs, gutters, medians, striping, and signage, footprints of all structures, walls, drainage devices and utility services. Parking lot striping and any on site traffic calming devices shall be shown on the precise grading plans.
- 47. The approval of the development plan shall not mean that proposed grading or improvements on adjacent properties (including any City properties/right-of-way or easements) is granted or guaranteed to the owner/developer. The owner/developer is responsible for obtaining written permission to grade or construct on adjacent properties prior to the issuance of a grading permit. Should such permission be denied, the development plan shall be subject to going back to public hearing or subject to a substantial conformity review.
- Where proposed off-site improvements, including but not limited to slopes, public utility facilities, and drainage facilities, are to be constructed, owner/developer shall, at his own expense, obtain all necessary easements or other interests in real property and shall dedicate the same to the City of Oceanside as required. Owner/developer shall provide documentary proof satisfactory to the City of Oceanside that such easements or other interest in real property have been obtained prior to the issuance of any grading, building or improvement permit for this development/project. Additionally, the City of Oceanside, may at its sole discretion, require that the owner/developer obtain at his sole expense a title policy insuring the necessary title for the easement or other interest in real property to have vested with the City of Oceanside or the owner/developer, as applicable.
- 49. Use of adjacent properties for construction without permission is prohibited.

  Developer is required to obtain written permission from adjacent property owners allowing access onto their site. There shall be no trespassing, grading, or

construction of any kind on adjacent properties without permission. "Failure to comply will result in the revocation of the grading permit." This written permission shall be provided to the City prior to the issuance of a grading permit.

- 50. A pavement evaluation report shall be submitted for the proposed onsite pavement with the grading plan application. Pavement sections for all public and private roadways, driveways and parking areas shall be based upon approved soil test requirements and traffic indices identified within the City of Oceanside Engineers Design and Processing Manual. The pavement design is to be prepared by the owner/developer's geotechnical engineering firm and be approved by the City Engineer prior to the issuance of a grading permit. Roadway alignments and geometric layouts shall be in conformance with the City of Oceanside Engineers Design and Processing Manual.
- 51. Prior to the issuance of a grading permit, a comprehensive soil and geologic investigation shall be conducted for the project site. All necessary measures shall be taken and implemented to assure slope stability, erosion control, and soil integrity; and these measures shall be incorporated as part of the grading plan design. No grading shall occur at the site without a grading permit.
- 52. It is the responsibility of the owner/developer to evaluate and determine that all soil imported as part of this development is free of hazardous and/or contaminated material as defined by the City and the County of San Diego Department of Environmental Health. Exported or imported soils shall be properly screened, tested, and documented regarding hazardous contamination.
- 53. Owner/developer shall place a covenant on the non-title sheet of the grading plan agreeing to the following: "The present or future owner/developer shall indemnify and save the City of Oceanside, its officers, agents, and employees harmless from any and all liabilities, claims arising from any landslide on this site".
- 54. Owner/developer shall develop and submit a draft neighborhood-notification flier to the City for review. The flier shall contain information on the project, construction schedule, notification of anticipated construction noise and traffic,

- and contact information. Prior to the issuance of a grading permit, the approved flier shall be distributed to area residents, property owners, and business owners located within a 300-foot radius area of the project.
- 55. The project shall provide and maintain year-round erosion control for the site. Prior to the issuance of a grading permit, an approved erosion control plan, designed for all proposed stages of construction, shall be secured by the owner/developer with cash securities or a Letter-of-Credit and approved by the City Engineer; a Certificate of Deposit will not be accepted for this security.
- 56. Owner/developer shall monitor, supervise and control all construction and construction-supportive activities, so as to prevent these activities from causing a public nuisance, including but not limited to, ensuring strict adherence to the following:
- 57. Dirt, debris and other construction material shall not be deposited on any public street or into the City's storm water conveyance system.
- 58. All grading and related site preparation and construction activities shall be limited to the hours of 7 AM to 6 PM, Monday through Friday. No engineering-related construction activities shall be conducted on Saturdays, Sundays or legal holidays unless written permission is granted by the City Engineer with specific limitations to the working hours and types of permitted operations. All on-site construction staging areas shall be located as far as possible (minimum 100 feet) from any existing residential development. As construction noise may still be intrusive in the evening or on holidays, the City of Oceanside Noise Ordinance also prohibits "any disturbing excessive or offensive noise which causes discomfort or annoyance to reasonable persons of normal sensitivity."
- 59. The construction site shall accommodate the parking of all motor vehicles used by persons working at or providing deliveries to the site. An alternate parking site can be considered by the City Engineer in the event that the lot size is too small and cannot accommodate parking of all motor vehicles.

- 60. Owner/developer shall complete a haul route permit application (if required for import/export of dirt) and submit to the City of Oceanside Transportation Engineering Section forty-eight hours (48) in advance of beginning of work. Hours of hauling operations shall be dictated by the approved haul route permit.
- 61. Landscape and irrigation plans for disturbed areas shall be submitted to the City Engineer prior to the issuance of a grading permit and approved by the City Engineer prior to the issuance of building permits. Landscaping plans, including plans for the construction of walls, fences or other structures at or near intersections, must conform to intersection sight distance requirements. Frontage and median landscaping shall be installed and established prior to the issuance of any certificates of occupancy. Securities shall be required only for landscape items in the public right-of-way. Any project fences, sound or privacy walls and monument entry walls/signs shall be shown on, bonded for and built from the approved landscape plans. These features shall also be shown on the precise grading plans for purposes of location only. Plantable, segmental walls shall be designed, reviewed and constructed from grading plans and landscape/irrigation design/construction shall be from landscape plans. All plans must be approved by the City Engineer and a pre-construction meeting held prior to the start of any improvements.
- 62. Unless an appropriate barrier is approved on a landscape plan, a minimum 42-inch high fall-arrest barrier, approved by the City Engineer, shall be provided at the top of all slopes whose height exceeds 20 feet or where the slope height exceeds 4 feet and is adjacent to any streets, an arterial street or state highway.
- 63. The drainage design shown on the conceptual grading/site plan, and the drainage report for this development plan is conceptual only. The final drainage report and design shall be based upon a hydrologic/hydraulic study that is in accordance with the latest San Diego County Hydrology and Drainage Manual, and is to be approved by the City Engineer prior to the issuance of a grading permit. All drainage picked up in an underground system shall remain underground until it is

- discharged into an approved channel, or as otherwise approved by the City Engineer.
- 64. The project's drainage system shall not connect or discharge to another private stormdrain system without first obtaining written permission from the owner of the system. The written permission letter shall be provided to the City prior to the issuance of a grading permit. The owner/developer shall be responsible for obtaining any off-site easements for storm drainage facilities.
- 65. All public storm drains shall be shown on separate public improvement plans.

  Public storm drain easements shall be dedicated to the City where required.
- Orainage facilities shall be designed and installed to adequately accommodate the local storm water runoff, and shall be in accordance with the San Diego County Hydrology Manual and the City of Oceanside Engineers Design and Processing Manual, and to the satisfaction of the City Engineer.
- 67. Sediment, silt, grease, trash, debris, and pollutants shall be collected on site and disposed of in accordance with all state and federal requirements, prior to discharging of stormwater into the City drainage system.
- Owner/developer shall comply with the provisions of the National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Discharges Associated with Construction and Land Disturbance Activities (General Permit) Water Quality Order 2022-0057-DWQ. The General Permit continues in force and effect until the effective date of a new General Permit adopted the State Water Board or the State Water Board rescinds this General Permit. Dischargers that obtain coverage under the expiring General Permit prior to the effective date of this permit, may continue coverage under the previous permit up to two years after the effective date of this General Permit (September 1, 2023). Construction activity subject to the General Permit includes, but not limited to, clearing, demolition, grading, excavation and other land disturbance activities that results in one or more acre of land surface, or that are part of common plan of development or sale.

69.

- The discharger shall obtain a Waste Discharge Identification (WDID) number prior to the commencement of construction activity by electronically certifying and submitting the Permit Registration Documents from Section III of the General Permit through the State Water Board Stormwater Multiple Application and Report Tracking System (SMARTS). In addition, coverage under the General Permit shall not occur until an adequate SWPPP is developed for the project as outlined in Section A of the General Permit. The site specific SWPPP shall be maintained on the project site at all times. The SWPPP shall be provided, upon request, to the United States Environmental Protection Agency (USEPA), State Water Resources Control Board (SWRCB), Regional Water Quality Control Board (RWQCB), City of Oceanside, and other applicable governing regulatory agencies. The SWPPP is considered a report that shall be available to the public by the RWQCB under section 308(b) of the Clean Water Act. The provisions of the General Permit and the site specific SWPPP shall be continuously implemented and enforced until the owner/developer obtains a Notice of Termination (NOT) for the SWRCB.
- 70. Owner/developer is required to retain records of all monitoring information, copies of all reports required by this General Permit, and records of all data used to complete the NOT for all construction activities to be covered by the General Permit for a period of at least three years from the date generated. This period may be extended by request of the SWRCB and/or RWQCB.
- 71. The project is categorized as a stormwater-Priority Development Project (PDP). A final Storm Water Quality Management Plan (SWQMP) and Operation & Maintenance (O&M) Plan shall be submitted to the City for review at the final engineering phase. Both documents are to be approved prior to the issuance of a grading permit.
- 72. The O&M Plan shall include an approved and executed Maintenance Mechanism pursuant to the City of Oceanside BMP Design Manual (BDM). At a minimum, the O&M Plan shall include the designated responsible party to manage the storm

water BMP(s), employee training program and duties, operating schedule, maintenance frequency, routine service schedule, specific maintenance activities, copies of resource agency permits, cost estimate for implementation of the O&M Plan, a non-refundable cash security to provide maintenance funding in the event of noncompliance to the O&M Plan, and any other necessary elements. The owner/developer shall complete and maintain O&M forms to document all operation, inspection, and maintenance activities. The owner/developer shall retain records for a minimum of 10 years. The records shall be made available to the City upon request.

- 73. The owner/developer shall enter into a City-Standard Stormwater Facilities Maintenance Agreement (SWFMA) with the City, obliging the owner/developer to maintain, repair and replace the Storm Water Best Management Practices (BMPs) structures identified in the project's approved SWQMP, as detailed in the O&M Plan, in perpetuity. Furthermore, the SWFMA will allow the City with access to the site for the purpose of BMP inspection and maintenance, if necessary. The Agreement shall be approved by the City Attorney's Office and recorded at the County Recorder's Office prior to the issuance of a precise grading permit. A non-refundable Security in the form of cash shall be required prior to issuance of a precise grading permit. The amount of the non-refundable security shall be equal to 10 years of maintenance costs, as identified by the O&M Plan, but not to exceed a total of \$25,000. The owner/developer's civil engineer shall prepare the O&M cost estimate.
- 74. The BMPs described in the project's approved SWQMP shall not be altered in any way, unless reviewed and approved by the City Engineer. The determination of whatever action is required for changes to a project's approved SWQMP shall be made by the City Engineer.
- 75. Prior to receiving a temporary or permanent occupancy permit, the project shall demonstrate that all structural BMPs, including Storm Water Pollutant Control BMPs and Hydromodification Management BMPs, are constructed and fully

- operational, are consistent with the approved SWQMP and the approved Precise Grading Plan, and are in accordance with San Diego RWQCB Order No. R9-2013-0001 §E.3.e. (1)(d).
- 76. Open space areas, down-sloped areas visible from a collector-level or above roadway classification, and improvements within the common areas that are not maintained by the property owner, shall be maintained by a homeowners' association that will ensure operation and maintenance of these items in perpetuity. These areas shall be indicated on the map and reserved for an association. Future buyers shall be made aware of any estimated monthly maintenance costs. The CC&R's shall be submitted and approved by the City prior to the recordation of the map.
- 77. All existing overhead utility lines located within the project development property and/or within any full width street or Right-of-Way abutting a new development, and all new extension services for the development of the project, including but not limited to, electrical, cable and telephone, shall be placed underground per Section 901.G. of the Subdivision Ordinance (R91-166), and as required by the City Engineer and current City policies.
- 78. All new extension services for the development of the project, including but not limited to, electrical, cable and telephone, shall be placed underground as required by the City Engineer and current City policies.
- 79. Prior to the approval of plans and the issuance of a grading permit, owner/developer shall obtain all necessary permits and clearances from public agencies having jurisdiction over the project due to its type, size, location, or infrastructure impact. The list of public agencies includes, but is not limited to, Public Utility Companies, the California Department of Transportation (Caltrans), the County of San Diego, the U. S. Army Corps of Engineers, the California Department of Fish & Game, the U. S. Fish and Wildlife Service, the San Diego Regional Water Quality Control Board, and the San Diego County Health Department.

- 80. Owner/developer shall comply with all the provisions of the City's cable television ordinances, including those relating to notification as required by the City Engineer.
- 81. If shoring is required for the construction of the proposed development, the shoring design plans shall be included within the grading plan set, and the structural design calculations shall be submitted with the grading plan application.
- 82. This property is located in the vicinity of an airport, within what is known as an airport influence area. As a result, the property may be exposed to some of the common annoyances or inconveniences associated with airport operations (for example: noise, vibration, or odors). An Airport Overflight Notification shall be provided to the City for review prior to issuance of a grading permit. The notification will need to be recorded prior to occupancy.
- 83. Approval of this development project is conditioned upon payment of all applicable impact fees and connection fees in the manner provided in chapter 32B of the Oceanside City Code. All traffic signal fees and contributions, highway thoroughfare fees, park fees, reimbursements, and other applicable charges, fees and deposits shall be paid prior to recordation of the map or the issuance of any building permits, in accordance with City Ordinances and policies. Payment of drainage impact fees are required prior to docketing the map for City Council hearing and the recording of the final map. The owner/developer shall also be required to join into, contribute, or participate in any improvement, lighting, or other special district affecting or affected by this project.
- 84. Upon acceptance of any fee waiver or reduction by the owner/developer, the entire project will be subject to prevailing wage requirements as specified by Labor Code section 1720(b) (4). The owner/developer shall agree to execute a form acknowledging the prevailing wage requirements prior to the granting of any fee reductions or waivers.

85. In the event that there are discrepancies in information between the conceptual plan and the conditions set forth in the project's entitlement resolution (Conditions of Approval), the project's entitlement resolution shall prevail.

#### Fire:

- 86. EMERGENCY RESPONSE MAPS - Geo- Referenced Preplans: Any new development, which necessitates updating of emergency response maps by virtue of new structures, hydrants, roadways or similar features, shall be required to provide map updates. Provide geo-referenced building plan in CAD (.dwg) format using the following coordinate system: NAD\_1983\_StatePlan\_California\_VI\_FIPS\_0406\_Feet. Data deliverables (CAD and GIS) shall specifically include a site plan, building plan, all Utility shut-offs, fire sprinkler risers and shut-off valves, the fire department connection for sprinkler and class-I standpipe, all standpipe hose outlets, all stairwells, retail spaces, living units -numbers /locations, fire alarm panels, elevators, fire hydrants and all Knox boxes and key switch locations.
- 87. For the purposes of determining the applicability of the Citywide Public Safety Community Facilities District (CFD) to residential occupancies, any new development or change in occupancy classified as an R occupancy in the most recently adopted California Building and/or California Fire codes with 16 or more dwelling or sleeping units (not intended for use as a hotel or motel where Transient Occupancy Taxes [TOT] will be collected) will be required to annex into the CFD as a condition of development. Additionally, for properties converted from a facility where TOT has been previously collected, the property will be required to annex into the CFD as a condition of development.
- 88. These projects include residential projects over 16 units in size that meet the following criteria:
  - i. Projects which are subject to a General Plan Amendment necessary to accommodate residential uses

- ii. Mixed-Use projects proposed on commercially-zoned land, including mixeduse projects in the Downtown District
- iii. Residential projects exceeding base density allowances
- iv. Assisted Living or Skilled Nursing facilities of any size
- 89. MATERIALS on SITE: Prior to delivery of combustible building construction materials to the project site; the following conditions shall be completed to the satisfaction of the Fire Dept.:
  - (1) Fire Hydrant(s) shall be installed, approved, and usable.
  - (2) Fire Lane or Access Roads shall be in place and provide a permanent all-weather surface for emergency vehicles that support the weight of fire apparatus (78,000 lbs).
- 90. HYDRANTS REQUIRED: Install multifamily, commercial-style fire hydrant. Minimum GPM shall be per CFC Appendix B. Industrial fire hydrants shall have One 4-inch port and Two 2.5-inch ports. Installation shall be as per Oceanside Water Department specifications. Maximum spacing from one hydrant to another cannot exceed 400 feet from another. Maximum distance from a fire hydrant to any fire department connection cannot exceed 40 feet.
- 91. Deferred Submittals:
  - -Automatic Fire Sprinkler, CFC & NFPA 13, 13R or 13D (Depending on construction)
  - -Fire Alarm System, CFC & NFPA 72 (Depending on type of fire sprinklers)
  - -Private Underground Fire Mains per CFC & NFPA 24 (If applicable)
- 92. FIRE LANE SIGNS: Signs reading "NO PARKING FIRE LANE" are required. The number of, placement, and wording for all fire lane signs and/or red curbs shall be as required by CA. Vehicle Code, section 22500.1, 22658(a) and Oceanside Fire Department Standards.
  - NOTE: No parking on roads where width is 28 feet or less. Parking is allowed on one side of the road at 32 feet.

93. MAP DIRECTORIES: A lighted directory map, shall be installed at each driveway entrance to residential projects where the numbers of units in such projects exceed 15.

#### **Housing:**

- 94. In order to satisfy the reserved affordable housing requirements for low and moderate-income households under Oceanside City Code Chapter 14C, the occupancy of 14 of the 140 ownership units shall be restricted for occupancy by Moderate-Income Households, as defined in California Health and Safety Code Section 50093, at an Affordable Housing Cost for a household size appropriate for the unit size, as set forth in Sections 50053 and 50052.5 of the California Health and Safety Code for a period of not less than 55 years.
- 95. Fourteen (14) dwelling units reserved for ownership to Moderate-Income Households units shall be provided proportional to the overall project in unit size, dispersed throughout the project, and have access to all amenities available to other residents based upon the same terms. Specifically, of the fourteen dwelling units, seven (7) two-bedroom units and seven (7) three-bedroom shall be reserved and affordable moderate-income households.
- 96. To demonstrate compliance with Chapter 14C, an Affordable Housing Agreement and a deed of trust securing such covenants, as approved by the City Attorney and the Housing and Neighborhood Services Director, shall be recorded against the title of the property and the relevant terms and conditions recorded as a deed restriction, regulatory agreement or other enforceable instrument. The Agreement will be recorded prior to the approval of any final or parcel map or issuance of a grading permit or the building permit for the first dwelling unit of the Project. The Agreement shall be binding to all future owners and successors in interest.
- 97. Affirmatively Furthering Fair Housing: An Affirmative Fair Housing Marketing Plan (AFHMP) shall be submitted for review and acceptance by the Housing and Neighborhood Services Department at least 6 months before issuance of the Certificate of Occupancy for the first dwelling unit of the Project utilizing Form

HUD-935.2B -Affirmative Fair Housing Marketing Plan (Single Family Housing). The purpose of this affirmative fair housing marketing program is to target and outreach to specific groups who may need differing efforts in order to be made aware of and apply for the available affordable housing opportunities. The affirmative fair housing marketing program should Identify the demographic groups within the housing market area which are least likely to apply for housing without special outreach efforts and an outreach program which includes special measures designed to attract those groups, in addition to other efforts designed to attract persons from the total population. All marketing materials must include the applicable fair housing logos, including the Equal Housing Opportunity and Accessibility logos.

98. Prior to the issuance of the building permit for the first residential dwelling unit of the project, the Project applicant shall make payment of the applicable Inclusionary Housing In-Lieu fee for seven (7) low/moderate-income housing units times the square feet of livable space of all of the dwelling units within the Project and the Administrative Fees (\$1,000 per development and \$100 per unit for all units) related to the administration and implementation OCC Chapter 14C-Inclusionary Housing and to ensure the residential project's compliance with all requirements and provisions thereof.

## Landscape:

99. Landscape plans, shall meet the criteria of the City of Oceanside Landscape Guidelines and Specifications for Landscape Development (latest revision), Water Conservation Ordinance No.(s) 91-15 and 10-Ordinance 0412, Engineering criteria, City code and ordinances, including the maintenance of such landscaping shall be submitted, reviewed and approved by the City Engineer prior to the issuance of building permits. Landscaping shall not be installed until bonds have been posted, fees paid, and plans signed for final approval. In addition, a refundable cash deposit for the preparation of the final As-built/ Maintenance Guarantee shall be secured with the City prior to the final approval of the

landscape construction plan. A landscape pre-construction meeting shall be conducted by the landscape architect of record, Public Works Inspector, developer or owner's representative and landscape contractor prior to commencement of the landscape and irrigation installation. The following landscaping items shall be required prior to plan approval and certificate of occupancy:

- a) Final landscape plans shall accurately show placement of all plant material such as but not limited to trees, shrubs, and groundcovers.
- b) Landscape Architect shall be aware of all utility, sewer, water, gas and storm drain lines and utility easements and place planting locations accordingly to meet City of Oceanside requirements.
- c) Final landscape plans shall be prepared under the direct supervision of a Registered Landscape Architect (State of California), with all drawings bearing their professional stamp and signature.
- d) All required landscape areas both public and private (including trees and palms in the public rights-of-way) shall be maintained by owner, project association or successor of the project (including public rights-of-way along Garrison Street.) The landscape areas shall be maintained per City of Oceanside requirements.
- e) The As-built/ Maintenance Guarantee (refundable cash deposit) shall not be released until the as-built drawings have been approved on the original approved Mylar landscape plan and the required maintenance period has been successfully terminated.
- f) Proposed landscape species shall fit the site and meet climate changes indicative to their planting location. The selection of plant material shall also be based on cultural, aesthetic, and maintenance considerations. In addition, proposed landscape species shall be low water users as well as meet all fire department requirements.
- g) All planting areas shall be prepared and implemented to the required depth with appropriate soil amendments, fertilizers, and appropriate supplements

- based upon a soils report from an agricultural suitability soil sample taken from the site.
- h) Ground covers or bark mulch shall fill in between the shrubs to shield the soil from the sun, evapotranspiration and run-off. All the flower and shrub beds shall be mulched to a 3" depth to help conserve water, lower the soil temperature and reduce weed growth.
- i) The shrubs shall be allowed to grow in their natural forms. All landscape improvements shall follow the City of Oceanside Guidelines.
- j) Root barriers shall be installed adjacent to all paving surfaces where a paving surface is located within 6 feet of a tree trunk on site (private) and within 10 feet of a tree trunk in the right-of-way (public). Root barriers shall extend 5 feet in each direction from the centerline of the trunk, for a total distance of 10 feet. Root barriers shall be 24 inches in depth. Installing a root barrier around the tree's root ball is unacceptable.
- k) All fences, gates, walls, stone walls, retaining walls, and plantable walls shall obtain Planning Division approval for these items in the conditions or application stage prior to 1<sup>st</sup> submittal of working drawings.
- For the planting and placement of trees and their distances from hardscape and other utilities/ structures the landscape plans shall follow the City of Oceanside's (current) Tree Planting Distances and Spacing Standards.
- m) An automatic irrigation system shall be installed to provide coverage for all planting areas shown on the plan. Low volume equipment shall provide sufficient water for plant growth with a minimum water loss due to water run-off.
- n) Irrigation systems shall use high quality, automatic control valves, controllers and other necessary irrigation equipment. All components shall be of non-corrosive material. All drip systems shall be adequately filtered and regulated per the manufacturer's recommended design parameters.

- o) All irrigation improvements shall follow the City of Oceanside Guidelines and Water Conservation Ordinance.
- p) The landscape plans shall match all plans affiliated with the project.
- q) Landscape construction drawings are required to implement approved Fire Department regulations, codes, and standards at the time of plan approval.
- r) Landscape plans shall comply with Biological and/or Geotechnical reports, as required, shall match the grading and improvement plans, comply with Storm Water Management Plan (SWMP), Hydromodification Plan, or Best Management Practices and meet the satisfaction of the City Engineer.
- s) Existing landscaping on and adjacent to the site shall be protected in place and supplemented or replaced to meet the satisfaction of the City Engineer.
- t) All pedestrian paving (both decorative and standard) shall comply with the most current edition of the American Disability Act.
- of-way and within any adjoining public parkways shall be permanently maintained by the owner, his assigns or any successors-in-interest in the property. The maintenance program shall include: a) normal care and irrigation of the landscaping b) repair and replacement of plant materials (including interior trees and street trees) c) irrigation systems as necessary d) general cleanup of the landscaped and open areas e) maintenance of parking lots, walkways, enhanced hardscape, trash enclosures, walls, fences, etc. f) pruning standards for street trees shall comply with the International Society of Arboriculture (ISA) Standard Practices for Tree Care Operations ANSI A300, Appendix G: Safety Standards, ANSI Z133; Appendix H; and Tree Pruning Guidelines, Appendix F (most current edition). Failure to maintain landscaping shall result in the City taking all appropriate enforcement actions including but not limited to citations. This maintenance program condition shall be recorded with a covenant as required by this resolution.

101. In the event that the conceptual landscape plan (CLP) does not match the conditions of approval, the resolution of approval shall govern.

#### **Planning:**

- 102. The Tentative Map, Development Plan and Planned Development (PD) Text shall not become effective until the effective date of the Ordinance approving Zoning Amendment ZA24-00001. The effective date of the Ordinance shall be used for determining expiration dates for the Tentative Map and Development Plan and no more than three years from the effective date of the Ordinance approving the Zoning Amendment.
- 103. This Tentative Map and Development Plan approve only a residential development, which includes 140 attached townhome units, as shown on the plans and exhibits presented to the Planning Commission for review and recommendation. No deviation from these approved plans and exhibits shall occur without Planning Division approval. Substantial deviations shall require a revision to the Tentative Map and/or Development Plan or a new Tentative Map and/or Development Plan.
- 104. The proposed project shall comply with all mitigation measures identified in the Final Mitigated Negative Declaration (SCH No. 2025060730) and associated Mitigation, Monitoring, and Reporting Program for the subject development. The applicant shall submit a mitigation compliance binder (digital format) to the Planning Division documenting compliance with all mitigation measures.
- 105. The applicant, permittee, or any successor-in-interest shall defend, indemnify, and hold harmless the City of Oceanside, its agents, officers, or employees from any claim, action, or proceeding against the City, its agents, officers, or employees to attack, set aside, void, or annul an approval of the City, concerning General Plan Amendment (GPA24-00002), Zoning Amendment (ZA24-00001), Tentative Map (T24-00002) and Development Plan (D24-00010). The City will promptly notify the applicant of any such claim, action, or proceeding against the City and will cooperate fully in the defense. If the City fails to promptly notify the applicant of

any such claim action or proceeding or fails to cooperate fully in the defense, the applicant shall not, thereafter, be responsible to defend, indemnify, or hold harmless the City.

- 106. A covenant or other recordable document approved by the City Attorney shall be prepared by the property owner and recorded prior to the approval of the final map. The covenant shall provide that the property is subject to this resolution, and shall generally list the conditions of approval.
- 107. Prior to the transfer of ownership and/or operation of the site, the owner shall provide a written copy of the applications, staff report, and resolutions for the project to the new owners and/or operators. This notification's provision shall run with the life of the project and shall be recorded as a covenant on the property.
- 108. Unless expressly waived, any future development project shall be subject to all current zoning standards, unless superseded by the Oceanside Garrison Planned Development Plan text, and City ordinances and policies in effect at the time building permits are issued. The approval of this project constitutes the applicant's agreement with all statements in the Description and Justification and other materials and information submitted with this application, unless specifically waived by an adopted condition of approval.
- 109. All dwelling units shall dispose of or recycle solid waste in a manner provided in City Code Section 13.3.
- 110. Outdoor lighting shall be low emission, shielded, and directed away from all property lines.
- 111. The project must comply with the recommendations of the Asbestos and Lead Survey dated May 17 2021 for demolition of all onsite structures.
- 112. The developer's construction of all fencing and walls associated with the project shall be in conformance with the approved Development Plan. If any aspect of the project fencing and walls is not covered by an approved Development Plan, the construction of fencing and walls shall conform to the development standards of the City Zoning Ordinance. In no case, shall the construction of fences and walls

- (including combinations thereof) exceed the limitations of the City of Oceanside Zoning Ordinance and/or the Oceanside Garrison Planned Development Plan, unless expressly granted by a Variance or other development approval.
- 113. Elevations, siding materials, colors, roofing materials, and floor plans shall be substantially the same as those approved by the City Council. These shall be shown on plans submitted to the Building Division and Planning Division.
- 114. Garages shall be kept available and useable for the parking of tenant's automobiles at all times.
- 115. The developer is prohibited from entering into any agreement with a cable television franchisee of the City, which gives such franchisee exclusive rights to install, operate, and or maintain its cable television system in the development.
- 116. An association shall be formed and Covenants, Conditions and Restrictions (CC&Rs) shall provide for the maintenance of all common open space and commonly owned fences and walls. The maintenance shall include normal care and irrigation of landscaping; repair and replacement of plant material and irrigation systems as necessary; and general clean-up of the landscaped and open area, parking lots and walkways. The CC&Rs shall be subject to review and approval of the City Attorney prior to the approval of the Final Map. The CC&Rs are required to be recorded prior to, or concurrently with, the Final Map. Any amendments to the CC&Rs in which the association relinquishes responsibility for the maintenance of any common open space shall not be permitted without the specific approval of the City of Oceanside. Such a clause shall be a part of the CC&Rs. The CC&Rs shall also contain provisions for the following:
  - a) Prohibition of parking or storage of recreational vehicles, trailers or boats.
  - b) Provision that garages shall be kept available and useable for the parking of tenant's automobiles at all times.
  - c) Provisions regulating individual patio covers, prohibiting room additions or other appurtenances.

- d) Provisions for the maintenance of all common open space including provisions establishing mechanisms to ensure adequate and continued monetary funding for such maintenance by the homeowners' association.
- e) Provisions that restrict any private use of open space areas. Restrictions shall include, but are not limited to, removing retaining walls, installing structures such as trellises, decks, retaining walls and other hardscape and any individual landscape improvements.
- f) Provisions prohibiting the homeowners' association from relinquishing its obligation to maintain the common open space areas without prior consent of the City of Oceanside.
- g) An acknowledgement that the City of Oceanside does not have a view preservation ordinance and that views may be subject to change with maturing off-site landscape and the potential for future off-site building.
- h) An acknowledgement that the park located at the project entrance is a public amenity that shall be available for public use subject to reasonable rules and regulations established by the association. The park is not designed to accommodate organized sporting events or gatherings, and thus the general public shall not be entitled to use the park for such purposes, unless expressly authorized by the HOA.
- 117. The proposed park located at the project entrance shall be open for use by the general public. The Homeowner's Association shall be responsible for maintenance of the park, including landscape maintenance, irrigation, and trash removal.
- 118. All residential units will be all-electric and will not use natural gas. No gas fireplaces shall be permitted inside residential units.
- 119. The project shall install and maintain renewable energy facilities (e.g. solar photovoltaic systems) that supply at least 50 percent of forecasted electricity demand.
- 120. The project shall install and maintain electric vehicle parking and charging facilities as outlined in Section 3048 of the Zoning Ordinance.

- 121. Prior to issuance of building permits, the project shall comply with the urban forestry standards outlined in Table 1 of Article 30, Section 3049 of the Zoning Ordinance. The project must also provide a Landscape and Tree Canopy Management Plan (LTCMP). The LTCMP shall include information regarding regular, seasonal, and emergency maintenance, trash abatement, irrigation, tree/plant care, tree replacement, insect and disease infestation prevention, integrated pest management, and appropriate response process etc. Projects that do not maintain landscape in a manner consistent with the approved LTCMP shall be subject to code enforcement action.
- 122. A letter of clearance from the affected school district in which the property is located shall be provided as required by City policy at the time building permits are issued.
- 123. A set of building plans shall be reviewed and approved by the City Planner prior to the issuance of building permits.
- 124. All mechanical rooftop and ground equipment shall be screened from public view as required by the Zoning Ordinance. The roof jacks, mechanical equipment, screens, and vents shall be painted with non-reflective paint to match the roof. This information shall be shown on the building plans.
- 125. Any project entrance signs shall meet the requirements of the Sign Ordinance and be approved by the City Planner.
- 126. Failure to meet any conditions of approval shall constitute a violation of the Tentative Map and Development Plan.
- 127. In accordance with Density Bonus requirements, fourteen (14) dwelling units shall be reserved for sale to moderate-income households. These affordable units shall be provided proportional to the overall project in unit size, dispersed throughout the project per the plans approved by the City Council, and have access to all amenities available to other residents. An Affordable Housing Agreement, limiting the sale of such units to eligible moderate-income households, and a deed of trust securing such covenants, as approved by the City Attorney and the Housing and Neighborhood

Services Director, shall be recorded against the title of the property and the relevant terms and conditions recorded as a deed restriction, regulatory agreement or other enforceable instrument. The Agreement will be recorded prior to the approval of any final or parcel map or issuance of a grading permit or the building permit for the first dwelling unit of the Project. The Agreement shall be binding to all future owners and successors in interest and shall be in effect for a minimum of fifty-five (55) years.

- 128. The required "Affordable Housing Regulatory Agreement" shall be recorded against the project site prior to the approval and/or issuance of a grading permit, the building permit or final or parcel map for the first residential dwelling unit of the project, whichever comes first for the project. The required Affordable Housing Agreement under Chapter 14C Inclusionary Housing may be utilized to secure the covenants required under density bonus law.
- 129. All units proposed as part of this project shall be sold for owner occupancy and fully utilized in accordance with the approvals of the Project; each single-family residential property unit shall be prohibited for use as a "short-term vacation rental" (as such term is defined in Chapter 24 of the City of Oceanside City Code, as may be amended from time to time.
- 130. All amenities and improvements associated with the project shall be installed prior to occupancy of the first unit, unless a phasing plan is submitted to the satisfaction of the City Planer and City Engineer.

# **Solid Waste:**

- 131. Each single-family residential property unit must have landfill, recycling, and organics services (residential carts). The carts must be stored on private property and screened from public view by a solid fence, wall or garage. The plans need to show where the storage for each stream of residential carts will be located. Label the three carts in their storage area to ensure service and proper storage for all three streams for each single-family residence.
- 132. The plans must demonstrate where servicing will occur for the residential carts to ensure adequate access by service vehicles. For cart dimensions and service vehicle

- requirements, including street turning radius and minimum road lengths, reference the City of Oceanside Enclosure Guidelines.
- 133. The City of Oceanside reserves the right to review program and services levels and request increases if deemed necessary. The City of Oceanside Municipal Code Chapter 13 requires that Oceanside residents, businesses and multifamily projects are to separate all recyclable material from other solid waste.

## **Transportation:**

134. To mitigate the project's impact at the intersection of Oceanside Blvd. and Garrison St., the project shall make a financial contribution to the City in the amount of \$110,000, to be paid into the City's Thoroughfare and Signal Account. These funds will be used at the City's discretion for projects that improve traffic safety and mobility within the City of Oceanside. The \$110,000 shall be paid in full prior to the issuance of the building permit for the 108th unit. This payment satisfies only the offsite improvement obligation. All other onsite improvements—such as roadway, sidewalk, bike trail/lane, etc.—that are contiguous to the project or needed to provide access to the project shall be completed at the project developer's expense.

# **Water Utilities**

#### **General Conditions:**

- 135. The developer will be responsible for developing all water and sewer utilities necessary to develop the property. Any relocation of water and/or sewer utilities is the responsibility of the developer and shall be done by an approved licensed contractor at the developer's expense.
- 136. All Water and Wastewater construction shall conform to the most recent edition of the *Water, Sewer, and Recycled Water Design and Construction Manual* or as approved by the Water Utilities Director.
- 137. The property owner shall maintain private water and wastewater utilities located on private property.
- 138. Water services and sewer laterals constructed in existing right-of-way locations are to be constructed by an approved and licensed contractor at developer's expense.

- 139. Minimum separation between water services and sewer laterals shall be 10 feet.
- 140. Each new residential dwelling unit shall be metered individually.
- 141. For a new multi-family residential development; the City has accepted, as an alternative, public master meter(s), provided there is a private sub-meter for each individual dwelling unit. The Property Owner or Homeowner's Association would be responsible for the ownership, maintenance, reading, and replacement of the private sub-meters. This should be addressed in the CC&Rs or a maintenance agreement
- 142. The Home Owner's Association shall be responsible for the shared water and sewer systems including the ownership, maintenance, repair and replacement of private onsite water and sewer mains, fire hydrants, sub-meters, sewer laterals and all other water and sewer appurtenances. This shall be included in the CC&Rs.
- 143. There shall be a minimum of two (2) master meters to serve the Development. Each master meter shall have a separate connection to a public water main such that the total peak domestic water demand can be served by the combined meters. Meters shall be equipped with a backflow device.
- 144. Provide a separate irrigation water meter for common area landscaping. Meter shall be managed and paid for by the Property Owner or Homeowner's Association. An address assignment will need to be completed for the meter, and can be processed through the City Planning Department.
- 145. A private on-site fire system shall be installed, separate from the private domestic water system, to supply the on-site private fire hydrants and fire services. The fire system shall be looped with two connections to a public water main. The private fire system shall connect to the existing 10-inch public water main in Garrison Street at the main entrance to the development. A second connection shall be made at the proposed public water main in the future access road at the easterly driveway to the development. Each connection shall be equipped with an approved double check detector backflow assembly.

- 146. Per the latest approved California Fire Code, all new residential units shall be equipped with fire sprinkler system. Water services that feed the fire sprinkler system along with the domestic water system shall be equipped with a backflow assembly that meets the latest state and local regulations.
- 147. Buildings requiring an NFPA 13 or NFPA 13R automatic sprinkler system for fire protection shall have a dedicated fire service connection to a public water main with a double check detector backflow assembly. Location of the backflow assembly must be approved by Fire Department.
- 148. Hot tap connections will not be allowed for size on size connections, and connections that are one (1) pipe size smaller than the water main. These connections shall be cut-in tees with three valves for each end of the tee. Provide a connection detail on the improvement plans for all cut-in tee connections.
- 149. The City has entered into a Cooperation Agreement (dated July 13, 2023) with the Developer (TTLC Management, Inc) in which the Developer agrees to pay a fair-share allocation equivalent to fifty percent (50%) of the actual design and construction costs of the proposed emergency access road required for the Developer's Parcel if constructed by the City on the City Parcel as required by the Fire Department. This also includes additional design and construction costs the developer would be responsible for paying should there be revisions to the City's capital improvement project for the benefit of the Development as described in the Amended and Restated Cooperation Agreement by and between the City of Oceanside and TTLC Management, Inc. and the Oceanside Unified School District relating to the 333 Garrison Street Property. Proposed changes to the City's capital project and/or property must be approved by the Water Utilities Department.

The following conditions shall be met prior to the approval of engineering design plans.

150. Any water and/or sewer improvements required to develop the proposed property will need to be included in the improvement plans and designed in accordance with the Water, Sewer, and Recycled Water Design and Construction Manual.

- 151. All public water and/or sewer facilities not located within the public right-of-way shall be provided with easements sized according to the *Water, Sewer, and Recycled Water Design and Construction Manual*. Easements shall be constructed for all weather access.
- 152. No building foundations will be allowed within 10 feet of the outside edge of a City easement. No trees, structures or building overhang shall be located within any water or wastewater utility easement.
- 153. Minimum separation between water services is 3 feet, and minimum separation between water services and sewer laterals shall be 10 feet.
- 154. Any water, sewer, storm drain or recycled water location not meeting minimum separation requirements will require a variance from the State Water Resources Control Board Division of Drinking Water, applied for by the developer.
- 155. Water and Sewer facilities, backflows or meters, shall have a minimum 10' separation from trees. Palm tree minimum separation is lowered to 5' from water and sewer facilities.
- 156. Avoid directing any drainage from the development onto or through the City's sewer lift station parcel.
- 157. The roadway and curb return of Private Drive "A" on the City's parcel require an Encroachment Removal Agreement. The Developer and eventually the Home Owner's Association will be responsible for maintenance of the roadway and curb return at Private Drive "A".
- 158. The City has entered into a Cooperation Agreement (dated July 13, 2023) with the Developer (TTLC Management, Inc) in which the City agrees to grant the Developer temporary access for construction across portions of the City Parcels for the benefit of the Developer Parcel as reasonably required for development and construction of the Developer Parcel. The Developer agrees to grant the City temporary access for construction across portions of the Developer Parcel for the benefit of the City Parcel as reasonably required for construction of the sewer lift station. If construction of the new public lift station has not commenced prior to final engineering plan approval

- of the Development, the Developer shall grant City permission to grade on development parcel for the access road and lift station improvements. The City will coordinate with the Developer to minimize disruptions to construction activities.
- 159. All buildings with a finished pad elevation located below the elevation of the next upstream manhole cover of the public sewer shall be protected from backflow of sewage by installing and maintaining an approved type backwater valve, per the latest adopted California Plumbing Code.
- 160. Recycled water is anticipated to be supplied through the existing 10-inch San Luis Rey Force Main pipeline line in the near future. When recycled water becomes available, this property shall be required to convert its irrigation supply to recycled water. The irrigation system shall be designed in anticipation of a future recycled water service and meter off of Garrison Street.
- 161. Developer shall prepare and submit recycled water irrigation plans to the Water Utilities Department for an independent review and pay a separate recycled water review fee. The review shall include the processing, plan submittal, permitting, inspection, and testing of the proposed irrigation system for approval by the State Water Resources Control Board / San Diego County Department of Environmental Health and Quality for on-site recycled water use. If Development is responsible for the irrigation or maintenance of any landscaping in the right-of-way, then a separate/dedicated recycled irrigation meter and service shall be required for this irrigation system. Local regulations do not permit a single irrigation meter to service landscaping areas across property lines.
- 162. On-site water mains shall be private, but designed and constructed per the most recent edition of the *Water*, *Sewer*, and *Recycled Water Design and Construction Manual*.
- 163. The on-site private water main shall be looped with two (2) connections to a public water main. The on-site water main shall connect to a public water main in Garrison Street at the main entrance to the development. A second connection in Garrison Street shall be made at the future access road, and the public main shall be installed

within the access road and connect to the on-site system at the easterly driveway. A tee with three valves shall be installed at the easterly driveway for a future main extension by the City.

- 164. There shall be no private utilities in the access road or City property, unless otherwise approved by Water Utilities Department.
- 165. The Water System Analysis for the Garrison Street Project in the City of Oceanside dated April 29, 2025 was reviewed by the Water Utilities Department. The results of the water analysis show that the proposed 12-inch sewer main in the emergency access road and the existing water system surrounding the development is adequate for both domestic and fire protection service. Any changes to the on-site or off-site water system design during improvement plan review may necessitate a revised water study to be submitted by the Developer for City review and approval.
- 166. All water and sewer mains along the property frontage not meeting the minimum main diameter and material requirements shall be replaced by the Developer, and at the Developer's expense, to meet current design standards for all new commercial, industrial, institutional, and residential developments of four (4) units or more.
- 167. The City has a capital improvement plan to construct a new public sewer lift station in the City's parcel APN: 1620202500 adjacent to the Development. If construction of the new public lift station has not commenced prior to final engineering plan approval of the Development, then the Developer will be responsible for installing the new public water main from the Development's south property line in Garrison Street to the northernmost point of proposed water main in the emergency access road, terminating at locations designated by the City to allow for future water main extension by the City, and constructing the new emergency access road, along with the domestic water and fire service connections for the Development. If construction of the new public lift station has commenced prior to final engineering plan approval of the Development, then the City will be responsible for installing the new water main in the emergency access road from the proposed southern water service connection for the Development in Garrison Street and the water main extension to

the existing water main in Garrison Street northeast of the Development. The Developer shall coordinate with the sewer lift station designer to determine the correct size and location of the proposed connections in the emergency access road. 168. The Developer shall be responsible for the cost of design, permitting and construction of the water main replacement from Development's south property line in Garrison Street to the proposed water and fire service connections for the Development in the emergency access road, along with the domestic water and fire service connections for the Development. If the City requires a water main pipe diameter larger than the minimum size proposed by the Developer in the emergency access road, as determined by the City-approved water study for the Development, the City shall be responsible only for the incremental material cost of the larger pipe. If construction of the new public lift station has not commenced prior to final engineering plan approval of the Development, the City agrees to reimburse the Developer solely for the difference in material costs, excluding all design, permitting, and construction expenses. If construction of the new public lift station has commenced prior to final engineering plan approval of the Development, the Developer shall reimburse the City for all costs for which the Developer is responsible, as outlined above. The Developer and the City shall execute a reimbursement agreement prior to final approval of the Development engineering plan.

169. Prior to final engineering plan approval of the Development, the Developer execute an agreement to reimburse the City for fifty percent (50%) of the actual design and construction costs of the approximately 285-foot water main extension from the proposed water and fire service connections for the Development in the emergency access road to the connection to the existing water main in Garrison Street north of the Development. The City agrees to perform the construction of the water main extension, including obtaining a water easement with SDG&E and abandoning the existing 10" water main in parcels APN 1620202300 and 1620202200. The estimated cost of the Developer's fair-share allocation to design and construct the

- water main extension is \$92,220.50. Any discrepancy between the estimated cost and the actual cost shall be reconciled upon the completion of the improvements.
- 170. The Water Utilities Department has reviewed the Sewer System Analysis for the Garrison Street Project in the City of Oceanside, dated April 15, 2025. The study evaluated the sewer collection system downstream of the Development, extending to the 15-inch trunk sewer line on Industry Street, just south of Oceanside Boulevard. This included analysis of the existing 8-inch VCP sewer main located within a public easement between Oceanside Boulevard and Industry Street. The findings indicate that the existing downstream sewer collection system has sufficient capacity to accommodate flows from the Development, and no additional off-site improvements will be required.
- 171. The on-site sewer collection system shall be private, but designed and constructed per the most recent edition of the *Water*, *Sewer*, and *Recycled Water Design and Construction Manual*. Radius or bends on gravity sewer main are not acceptable.
- 172. Connections to a public sewer main with a 6-inch or larger sewer lateral will require a new sewer manhole for connection to main per Section 3.3 of *Water, Sewer, and Recycled Water Design and Construction Manual*.
- 173. Connection to an existing sewer manhole will require rehabilitation of the manhole per City standards. Rehabilitation may include, but not be limited to, re-channeling of the manhole base, surface preparation and coating the interior of the manhole, and replacing the manhole cone with a 36" opening and double ring manhole frame and lid.
- 174. Provide peak irrigation flows per zone or control valve to verify size of irrigation meter and reduced pressure principle backflow device on Landscape Plans. Plans shall be in compliance with the latest California Department of Water Resources Model Water Efficient Landscape Ordinance
- 175. All existing and proposed on-site sewer manholes shall be accessible by an access road, turf block, or pavement that can support H-20 loading for sewer vactor truck.

- Access road or pavement must allow a minimum turning radius of 46-feet (outer wheel) for curb clearance and a wall clearance of 46'-11". Truck length is 41'-6".
- 176. Provide stationing and offsets for existing and proposed water service connections and sewer laterals on plans.
- 177. Any unused water services or sewer laterals by the proposed development, shall be abandoned in accordance with Water Utilities requirements. If an existing water meter is abandoned then a credit will be applied towards future buy-in fees in the amount of the current buy-in fee of the existing meter.

## The following conditions of approval shall be met prior to building permit issuance.

- 178. Show location and size of existing and proposed water meter(s), including submeters, on site plan of building plans. Show waterline from proposed meter to connection point to buildings.
- 179. Show location and size of existing and proposed sewer lateral(s) from property line or connection to sewer main to connection point at building.
- 180. Provide a fixture unit count table and supply demand estimate per the latest adopted California Plumbing Code (Appendix A) to size the water meter(s), sub-meters, and service line(s).
- 181. Provide drainage fixture unit count per the latest adopted California Plumbing Code to size sewer lateral for each building.
