What relevant experience or education can you bring to this advisory group?

I have a master's degree in applied economics with more than 16 years of professional experience in children's public health. I have spent my career focused on policy interventions that protect our nation's most vulnerable children. In my free time, I have a great deal of hands-on, field experience for habitat restoration efforts across Oceanside. I also co-founded Strong Towns Oceanside, which is an urbanist advocacy non-profit focused on safer streets, affordable housing, and fiscal solvency.

---

What community organizations and associations do you belong to?

I have spent the past eight years volunteering for non-profit environmental organizations: Friends of El Corazon, Preserve Calavera, San Diego Habitat Conservancy, I Love a Clean SD. I am also a member of Buena Vista Audubon Society, Sierra Club Coasters, and Surfrider Foundation and have advocated for all at city hall. With Strong Towns Oceanside, we have worked together with AARP Age-Friendly Communities on several community walk audits, which have resulted in several road safety upgrades.

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

I am currently working with Oceanside City staff on the Wildlife Corridor Planning Zone Working Group (2024-Present), with Deputy Mayor Joyce on the Environmental Advisory Group (2023-Present), and with Deputy Mayor Joyce on the Green Spaces Coalition (2025-Present).

---

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

I would honored to serve on the Oceanside Planning Commission. I believe I have strong qualifications from my training as an economist, professional work in children's public health, hands-on fieldwork in Oceanside for safer streets, walkable communities, and habitat restoration as well as advocacy at city hall for affordable housing, viable public transit, and a thriving downtown core. I also deeply care about our city and have been cleaning up litter around the city on my own since 2014.

It is the policy of the City of Oceanside that no qualified disabled person will be denied the opportunity to participate as a member of any advisory commission. Appropriate arrangements will be made to accommodate individuals as needed.

**What are your main areas of interest in Oceanside City government?**

I am most interested in deep affordability for all, road safety, and in the city's economic prosperity while we grow. I want to steward Oceanside for future generations of Osiders, including my own children.

---

**What relevant experience or education can you bring to this advisory group?**

I bring my experience first as a local born in Oceanside. I bring my knowledge on housing and road safety as an advocate and someone doing the work to learn the research as it comes out. I also run two local advocacy groups, and I hear from everyone about what they want to see in Oceanside's future.

---

**What community organizations and associations do you belong to?**

I am co-founder of Strong Towns Oceanside and YIMBY Oceanside. Strong Towns Oceanside is committed to using local data to advocate for common-sense housing solutions, road safety initiatives, and fiscal responsibility. YIMBY Oceanside looks for local housing policy wins and takes up those fights.

---

**Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.**

I don't think I've served on any official groups. I was part of council member Joyce's Environmental advisory group, but I don't think that was in any Oceanside official capacity.

---

**Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).**

I am not involved in any way with any member of that group and have no affiliation with council member Joyce. I don't think it still exists.

---

**Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?**

I am available any day/time

---

**What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?**

I bring years of knowledge and research and advocacy. But I lead with good-faith. I always back everything I say publicly up with local facts and data to support it. I am not ideological, and I leave national-level politics out of local issues. I will hear everyone with an open mind and use my moral grounding paired with facts to make decisions and recommendations. I hope this resonates with the Commission and thank you for your time.

POSITION TITLE: Biologist (on-call)

DRIVER'S LICENSE: [REDACTED]  
(State) (Number) (Date of Birth)

I have been an Oceanside resident for 9 years.  New applicant  Request reappointment

What are your main areas of interest in Oceanside City government?

(1) As a wildlife biologist, my main interest lies in balancing the housing needs of the people with the housing needs of our native wildlife. I am interested in smart and strategic planning that best conserves our natural resources and adheres to regional conservation plans. In addition to their intrinsic value, our natural resources provide immense value to both residents and tourists and should be protected and augmented.

\*Due to space limit, continued in sections below\*

---

What relevant experience or education can you bring to this advisory group?

From working in the field of wildlife biology for the past 15 years, I have a strong knowledge of our local natural resources. I have a strong knowledge of CEQA from taking multiple AEP workshops and through my participation as a citizen of Oceanside in the EIR process. I understand the needs of our sensitive wildlife and plant species, especially the endangered Least Bell's Vireo which I researched in Oceanside through a role at USGS. I have a B.A. in Business Economics from UCLA.

---

What community organizations and associations do you belong to?

Buena Vista Audubon  
San Diego Field Biologists  
The Wildlife Society  
Association of Environmental Professionals  
Parent-Teacher Association (PTA)  
~~Local grassroots groups including: Let Oceanside Vote, Guardians of Guajome~~

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

No

\*Interests continued: (2) I am also very passionate about the public transit aspect of "smart growth." Building homes near public transit is not just smart; it's essential. Smart and strategic planning should seek to minimize traffic congestion while reducing air pollution and greenhouse gas emissions, all of which can be achieved through public transit.

---

Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).

No

\*Interests continued: (3) Citizen engagement is also one of my top concerns. Most residents are disconnected from their local government and don't realize the impact they could have on shaping the future of their city. Providing education on how to get involved with city decision-making, through workshops and other outreach, would be a great step toward increased engagement. ~~Most people feel helpless and it shouldn't be that way.~~

---

Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?

No

---

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

I offer an expertise that is lacking on the Planning Commission. We need more people with biological expertise in decision-making roles in all levels of government. I am extremely passionate about our Oceanside government and thrive on being an engaged citizen. I would love the opportunity to take my passion to the next level by serving on the Planning Commission.

What are your main areas of interest in Oceanside City government?

Balancing growth and tourism with housing and lifestyle. Oceanside is and will continue to be a beach community. The wrong kind of growth or poorly designed infrastructure will degrade the appeal of Oceanside as a destination as well as a place to live.

---

What relevant experience or education can you bring to this advisory group?

A degree in Civil Engineering and 30+ years of experience in project management, which is completely applicable to civil planning and project evaluation. Every project, whether a mixed-use apartment with first-floor retail space or a new business, requires a clear definition of the objective of a project, identification of alternative approaches, a quantitative comparison of the benefits and drawbacks of each alternative, and a clear explanation of the reasons for a decision.

---

What community organizations and associations do you belong to?

My wife is on the Board of the Assistance League North Coast, a nonprofit organization based in Oceanside, whose mission is to provide shoes and clothing to needy children in local schools as well as teacher grants and scholarships for graduating high school students. Although I am not officially a member, I donate to the group and provide administrative and technical help to the members.

---

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

No.

---

Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).

No.

---

Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?

No. As an independent consultant, I am able to adjust my schedule to accommodate meetings on any day at any time.

---

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

I believe that I can contribute to the process of evaluating building projects in Oceanside, drawing on my technical and organizational experience. I have no established bias, either for or against, for growth and development. I would look to the long-term plans created by the City Council for guidance on the type, scale, and impact of new development and re-development. I like the direction that Oceanside has gone over the 8 years that I have lived here.

**What are your main areas of interest in Oceanside City government?**

Ensuring that our policies and ordinances help us live together peacefully in our more dense and diverse City. We are going to grow and Oceanside can house many more people. The trick is creating a place where we all still want to live. We have the "bones" to do this and now we are bringing in the policies with the GPA adoption. I often get pigeon-holed because the Council only sees me when there is an issue. I can and do bring much more to the table. We need new voices as well as seasoned ones.

---

**What relevant experience or education can you bring to this advisory group?**

Planning Commissioner for 9 years in the 2000's. I continue to educate myself on how problems actually get solved in ways that stand the test of time (Mech Engineer). The groups I belong to expose me to a diverse set of views. My kids were born and raised here. I am curious and know about many corners of the City and what has worked versus what is failing. I am a rental owner with units at all levels of affordability. I own 80 acres of land in New Mexico and understand land management issues.

---

**What community organizations and associations do you belong to?**

Council Vice President King of Kings Lutheran Church  
President Friends of El Corazon  
Board Member Buena Vista Audubon  
Former President of OCNA, former member of Main Street Design Committee  
My husband and I are current and long time supporters of many Oceanside groups - OCF, OMA, WRC, Bro Bennos, OHS (history and school), St Mary Star of the Sea, B&G Club, etc. I have been a county Science Fair judge for years (GSDSEF). Created the

**What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?**

We can't get there from here unless we look at the actual data and change some of our approaches. New research confirms what we have observed - homelessness is a housing problem, good design raises retail/commercial rents, traffic cannot ever get better until there are fewer cars. We can't house all the cars but we can house all the people and create jobs.

Senior Project - Fall 2018-Spring 2019

#### *Hydraulic Lead*

This project involved creating a HEC-RAS 1-D model of the upper portion of the Los Angeles River near the Sepulveda Dam to understand the magnitude of force the water would exert on critical bridges in the case of a failure with the Sepulveda Dam. I created a surface, alignment, and sample lines based on a geotiff file for the HEC-RAS model.
