BOGE 40HP Premium Rotary Screw Compressor

Engineered, Compressed Air System

QTY	DESCRIPTION	UNIT PRICE
2 Head works	BOGE S40-3 N screw compressor, air-cooled - automatic operation, (40HP) Premium Efficiency , Fix Speed Rotary Screw Air Compressor, Air-Flow 184 CFM (each) @ 125 PSIG, 190 PSIG Max. Base mounted, 230V / 3 phase, Belt Drive, Minimal pressure loss with BOGE oil injected air end with optimized screw profile mounted directly onto the receiver. Platinum Warranty* <ul style="list-style-type: none"> 2-Year Full Package Warranty. 5-Year Comprehensive Major Components Warranty protects the compression element (AirEnd), Main Drive Motor, Separator Tank, and Microprocessor. 	\$48,172.00 Price per Unit \$24,086 <i>40HP</i>
2 Plant 1	BOGE S40-3 N screw compressor, air-cooled - automatic operation, (40HP) Premium Efficiency , Fix Speed Rotary Screw Air Compressor, Air-Flow 184 CFM (each) @ 125 PSIG, 190 PSIG Max. Base mounted, 230V / 3 phase, Belt Drive, Minimal pressure loss with BOGE oil injected air end with optimized screw profile mounted directly onto the receiver. Platinum Warranty* <ul style="list-style-type: none"> 2-Year Full Package Warranty. 5-Year Comprehensive Major Components Warranty protects the compression element (AirEnd), Main Drive Motor, Separator Tank, and Microprocessor. 	\$48,172.00 Price per Unit \$24,086 <i>40HP</i>
1	Certified Equipment Start up and Commissioning Service	Included
1	Mechanical Installation Services Available:	Installation available, Not Included
Equipment & Installation Sub-Total →		\$96,344.00
Sales Tax @ 7.75% →		\$7,466.66
Freight to Jobsite →		\$2,610.00
Order Total →		\$106,420.66

Plus, Applicable Freight & Sales Taxes

BOGE, Fixed Speed 40Hp Rotary Screw Air Compressor

Project Terms:	Installation Progressive Payments: <ul style="list-style-type: none"> - 50% Payment Due at Time of Order - Final 50% Balance Due Net-15 Days from Installation Completion
F.O.B.:	Pomona, CA (Freight is Pre-paid and added to invoice)
Project Notes:	<ol style="list-style-type: none"> 1. Customer-Provided Access: The customer is responsible for ensuring uninterrupted access to all equipment and the designated work area throughout the entirety of the project. Delays or disruptions due to restricted access may impact the schedule and result in additional charges. 2. Work Hours and Schedule: All work is to be performed during standard business hours (7:00 AM – 5:00 PM, Monday through Friday). Work requested outside these hours may require a written change order and may incur additional charges. 3. Scope of Supply by Haringa Compressor Inc.: Haringa Compressor Inc. will supply all required equipment, labor, and materials as outlined in the scope of work. Any additional materials, equipment, or labor beyond the agreed-upon scope will require a separate change order and may incur additional costs. 4. Forklift Provision for Equipment Off-Loading: The customer is responsible for providing a fully operational forklift for the off-loading of equipment and deliveries as scheduled. Any delays or additional handling requirements resulting from a lack of equipment will incur additional charges. 5. Exclusions for Structural and Engineering Costs: Costs related to structural modifications or engineering services are not included in this proposal. If such services are required, they will be provided at an additional cost under a separate agreement. 6. Permits, Fees, and Additional Engineering Excluded: Permits, fees, and engineering costs associated with this scope of work are excluded from this proposal. Haringa Compressor Inc. can provide a separate proposal for these items if needed. The customer is responsible for all associated permit requirements unless otherwise specified. 7. Pricing, Estimates, and Approval of Additional Requirements: All pricing provided is an estimate based on the scope of work and customer-supplied information. Haringa Compressor Inc.'s Standard Terms and Agreement of Sale apply. Any changes to installation requirements or additional needs identified during the project will be presented to the customer as a change order and require formal approval before proceeding. 8. Haringa Compressor Inc Standard Terms and Conditions of Sale Apply <p> https://www.haringacompressor.com/terms/ https://www.haringacompressor.com/wp-content/uploads/2017/02/HCI_Terms-and-Conditions-102014_PUB.pdf </p>

BOGE Engineered Systems
High Efficiency, 40HP Rotary Screw Air Compressor

BOGE S40-3 Industrial Rotary Screw Compressor, Air-Cooled - Energy Efficient Operation

Effective free air delivery of complete unit

• Measured according to PN2 CPT C2 and ISO 1217 Part C	240 / 22 CFM
• Full Load Discharge Pressure	100 / 125 PSI
• Rated power of drive motor	40 HP
• Rated capacity of fan motor	2 HP
• Protection type / motor insulation class.....	IP55 / F
• Operating voltage	2300V/3Ph/60Hz
• Control voltage	115V AC / 24V
DC.....	
• Compressed air outlet temperature above ambient temperature	10°F
• Cooling air flow volume (if connected to ducting).....	3,825 CFM
• Suction or ambient temperature (min...max)	+40...+113°F
• Residual oil content in compressed air	1...3 ppm
• Unit sound pressure level (in accordance with DIN/PN8NTC2.3).....	74 db(A)
• Width / Depth / Height	64 / 39 / 57
inches	
• <i>Super Silencer</i> Width / Depth / Height.....	64 / 39 / 77 inches
• Compressed air connection (ball valve).....	NPT 1¼ inches
• Weight.....	1,857 Lbs
